# SHOW YOU CARE ABOUT YOUR CHILD'S EDUCATION - PUT THIS POSTER IN YOUR WINDOW

**The school funding crisis is ongoing. Brighton and Hove schools lost more than £15.6 million between 2015 and 2019 and our children are feeling the impact.**

During this General Election campaign, let's make sure all political parties know that our schools need funding NOW! Let's **keep the pressure** on so that political parties' **promises turn into adequate funding**.

Make sure that election canvassers know you care about education.

Facts about school funding:

- **Spending per pupil** has **fallen by 8%** in real terms between 2010 and 2018. (Source: IFS)
- Between 2010 and 2018, **funding per student in school sixth forms fell by 25%** in real terms. (Source: IFS)
- Up to **8,587 children** and young people **with SEND** (Special Educational Needs and Disability) have **no access** to any type of educational provision. (Source: NEU).
- To repair the damage created by cuts in school funding since 2010, our schools and colleges need **£12.6bn more** per year by 2022/23 (Source: NEU)

Don't hide behind the sofa when the canvassers ring! Let them know you care and challenge their pledges.

**Our schools cannot afford any more empty promises or short-term fixes. Our schools need funding NOW.**
